Flood Conditions Change for Better

PARIS, January 29.—Conditions grow hourly worse throughout this city, although the Seine has ceased to rise and it is reported_that the swollen tributaries are falling. Yesterday was Deputy Attorney General May one of terror, while to add to the scene of confusion, refugees from the surrounding country In all probability Lorrin Andrews, began to crowd into the upper sections of the city, demanding food and shelter.

> The floods reached the heart of the city yesterday and the devastation of rose the water that the Pulace of the Louvre had to be abandoned, with destruction by the elements;

> The Champs Elysees is covered with water and the destruction along this magnificent bonlevard, with its rafes, gardens, theaters, statuary and palaces

The famous Laxembourg Gardens, high on the left bank of the Seine, have been reached by the flood and farmish for his use some level testing and wide, throughout the Quartier Latin, the Quartier Germain, the Champ de Mars district and the westorn boulevards, destruction raged all

Refugees Flocking In.

Refugers by the thousands have been flooring into the city, many walking in from districts where furlway traffic though. By that night thirty-six thousand, homeless and without food, had forced themselves upon the attention o# the administrational authorities.
